

SUFFOLK UNIVERSITY'S INFORMATION SYSTEMS AND OPERATIONS MANAGEMENT,
HEALTHCARE ADMINISTRATION, AND MARKETING DEPARTMENTS,
SAWYER BUSINESS SCHOOL, AND FORD HALL FORUM PRESENT:

TAKING A DEEP DIVE INTO THE GLOBAL SUPPLY CHAIN CRISIS

A THREE-WEEK SPRING SEMINAR SERIES

WEEK THREE: SUPPLY SHORTAGES IN U.S. HOSPITALS: BEFORE AND DURING THE PANDEMIC

Historical and current shortages in the hospital industry are not limited to personal protective equipment and ventilators but instead include a variety of medical supplies and pharmaceuticals. In this event, a panel of experts from both the hospital and healthcare distribution sectors will discuss how supply chain shortages affect U.S. hospitals, not just during the pandemic but also before. Supply shortages impact both patient care and the cost of care in the United States. Join us to learn about the complex reasons behind these shortages, their impact on our healthcare system, and how both the suppliers and healthcare organizations mitigate the challenges of recurring supply shortages.

Thursday, March 31, 2022
6-7:30 pm Live via Zoom

This event is free and open to the public.
